Chinese Black Up and Try to Cross Border as Negro Laborers.
A new scheme to smuggle Chinese over the Canadian border has been discovered by United States officials, who say five Chinese syndicates were working it. The Chinamen were blacked up to look like negroes and given picks and shovels. They were then rowed across the St. Lawrence from Prescott, Canada. Five of them were caught at Ogdensburg, N. Y.

Hires Expert to Kill All the Rattlesnakes on Rattlesnake Mountain.
The rattlesnakes have increased so rapidly on Rattlesnake Mountain that William D. Sloan's superintendent has hired an expert from Connecticut to kill them all off.

Many summer visitors now travel over the mountain near Lenox, Mass., and need protection. The wholesale extermination of "rattles" will begin as soon as warm weather brings them from their dens.

Hog Lived 100 Days Without Food Under Cyclone-Wrecked Church.
A hog that had been imprisoned under the ruins of a church near Evergreen, Ala., for 100 days without food or water was found alive.

The church was blown down by a cyclone Feb. 21. When the debris was removed yesterday the animal was still able to walk and is all right now.

Aunt, 108, Threatens to Spank 85-Year-Old Nephew for Hugging Her.

Moses Lazarowitz, eighty-six years old, discovered yesterday that his aunt, Mrs. Ethel Plosky, 108 years old, was also a resident of the Home of the Daughters of Jacob. Since they parted in Warsaw

in 1901 he had lost track of her. He embraced her so strenuously she laughingly threatened to spank him, declaring that he was "the same impetuous boy he always was." He has been in the home but a few days.

Every Time He "Snored" the Judge It Cost Him Something.
William Weston of No. 87 West Thirtieth street, after being fined \$3 for disorderly conduct by Magistrate McQuade in the Night Court, "talked back" to the Court and was fined \$2 more. He paid it and turned at the door to say it was a shame and add:

THE MODERN WAY OF LIVING A SEVERE TAX ON VITALITY

Modern living is a tremendous tax on the vitality of the nation. The woman of that splendid physique of our pioneer days, who was the mother of the West, is fast disappearing from memory. The woman of today is an anemic, sickly, always tired, exhausted type. The reason for this is very simple. The call of social duty has imposed on the woman of today responsibilities that take up too much of her time and sap her vitality. The wife of the business man, artisan, clerk or workman frequently has just as many social responsibilities as the woman of fashion. The fact that she has house work and other domestic duties to perform only tends to make her life the harder.

Many women think they are suffering from various diseases but don't really

know what ails them. They have headaches; many of them have nervous prostration; they suffer from gas on the stomach, liver trouble, constipation, kidney and fiver trouble, anæmia and other ailments. They eat too much, too irregularly and fail to take healthy outdoor exercise as nature demands. Food lies heavily on the stomach, sours, gases form and poison pumped into their blood. All kinds of diseases of course are bound to follow.

Cooper's New Discovery tones up the stomach and aids in the assimilation of food so that it imparts strength and vigor to the system. It makes rich, red blood, tunes the nerves and will restore a run-down, half-sick, anæmic person to the full bloom of health. For sale at all druggists.

PHOTOGRAVURES For June Weddings Bought—And Priced—Unusually

The whole process of gathering the Gimbel stock of photogravures is different from that employed by most dealers. We buy the pictures abroad, often controlling our own subjects, for the United States and Canada, and import them for the same prices as the largest jobbers do. Our experts color them true to the originals, and they are finally put in frames of our own design—thereby making the production exclusive in every way. To make these beautiful Photogravures easy to give as June wedding presents, we make our usual low prices still lower.

Hand-colored Photogravures, in antique frames; from one to four of a style, at \$4, regularly \$7.50 and \$10.

The GIMBEL Freezing Vault Is New York's Finest and Most Perfect SUMMER HOME for Your FURS

The Moths are Flying Thick Right Now. Their work of destruction is going on in thousands of homes. Your Furs should be sent to a place of protection AT ONCE. The Gimbel freezing room for Fur Storage is one of the most modernly appointed vaults in New York City devoted exclusively to the proper keeping of furs during the Summer.

The cold storage system is the only perfect preventive of the destructive work of the moths. While it conserves the natural oils of the pelt it vastly improves the brilliancy of the fur, bringing back the original luster of life which dressed skins so often lose after a period of wear.

Each garment when received is ticketed, numbered and registered, closely examined and then hung in our freezing room where the frigid air circulates freely around each garment. We accept all responsibility against damage by moths, fire or burglary.

The garments are always ready for immediate use. If you wish to use a wrap or coat for a single day or night, or to take away to the mountains on a special trip, it can be gotten at once and returned to storage after the special occasion is over. This can be repeated as often as the owner desires during the storage season, without any extra cost.

The Best Possible Service at Moderate Charges.
Visitors are invited to go through our Cold Storage Vault at their convenience and see for themselves just how fine are all its appointments and how perfect is the Gimbel system of cold storage. Telephone Madison Square 8200, and we will call for your furs immediately.

Our Fur Workroom is equipped with the latest devices for making to order new Fur Garments copied from best foreign models, also for making Repairs and Remodeling at Special Summer prices. **Fur Storage Desk, Third Floor.**
